

To whom it may concern:

Connect Hearing has been a trusted partner in assisting medical professionals improve their patients' quality of life through better hearing since 1978. At Connect Hearing, our hearing care professionals can thoroughly evaluate your patient's hearing by offering full audiological services and patient-centered care. Our Diagnostic Assessment & Report consists of an in-depth assessment of your patient's hearing health and communication needs, accompanied by a tailored treatment plan. Research shows that people wait seven years on average to address their hearing loss. When they come to terms with needing help, 80% will seek advice from their physician.

Connect Hearing provides a **full range of audiological services** including:

- Complimentary hearing screening (no charge, no report)
- Diagnostic hearing assessment and report
- Assessing middle ear dysfunction
- Tinnitus consultation
- Counseling
- Hearing aid dispensing
- Hearing conservation
 - Custom ear molds
 - Generic hearing protection
- Hearing aid maintenance
 - Our Total Care Program provides exceptional after-care support

A detailed diagnostic assessment report and audiogram will be faxed for your patient file with all diagnostic assessment requests.

For patients requiring medical follow-up, when a red flag is identified, Connect Hearing will provide:

- Standardized medical referral forms
- Medical clearance form with an easy-to-fill-in physician section for you to complete if a patient requires medical clearance prior to the fitting of hearing aids

Automatic referral system coming soon

In the meantime, please feel free to contact our centralized scheduling center by phone at 1-888-608-7462 or via email at info@connecthearing.com to refer a patient for a hearing evaluation.

Thank you,

Renee Flanagan
